

# Presentation Skills - How to Give Great Scientific Presentations

## TwentyOne Skills

### Objective

Science needs to be presented – be it at international conferences, during a group meeting or as a TED talk. In this class, we address the most important aspects of public speaking and the art of science presentation.

### Description

- Be prepared for a scientific presentation
- Know all essential aspects of presentation and independently improve them through specific exercises
- How do I address an expert audience, inspire them, get my content across clearly and achieve a long term effect?
- Clear language, appropriate body language, confident appearance
- Dealing with questions and being prepared for stage fright and stress

### Conditions

In cooperation with TwentyOne Skills, GRADE offers about 35 asynchronous online courses.

The 3-month sessions start at the beginning of January, April, July and October.

Registration is possible at any time. Confirmed participants can access the courses for 3 months at the online platform of TwentyOne Skills. The current registration link can be found here: <https://tinygu.de/en21skills>
