Communicating my Research:
Basics of Science Communication

**Objective**
Science is not finished until it is communicated. Learn about the basics of science communication in part 1 of this series of three eLearnings.

**Description**
- Science Communication - Basics and Principles
- Overview of different media and formats
- Good preparation for media contacts and interviews
- Risks and dangers and how to deal with them confidently
- Authorization, rights regarding one’s own image, quotations and other legal issues
- Statements and formulations: understandable and easily remembered

**Conditions**
In cooperation with TwentyOne Skills, GRADE offers about 35 asynchronous online courses.
The 3-month sessions start at the beginning of January, April, July and October. Registration is possible at any time. Confirmed participants can access the courses for 3 months at the online platform of TwentyOne Skills.
The registration link can be found here: [https://tinygu.de/en21skills](https://tinygu.de/en21skills)
